REMARKS

This Response to Notice to Comply corrects minor informalities in the Original Sequence Listing and Specification as filed. In the figure legend for Figure 2, *L. kirschneri* serovar cynopteri was mistakenly identified as (SEQ ID NO:13). As shown in the actual figure and upon comparison with the Sequence listing it can be seen that SEQ ID NO:13 is actually that of *L. noguchii* serovar panama, and *L. kirschneri* serovar cynopteri is actually (SEQ ID NO:14). Related to this *L. interrogans* serovar icterohaemorrhagiae was identified as SEQ ID NO:14 and upon reference to Figure 2, it can be seen that it is SEQ ID NO:15. Therefore, the figure legend has been amended to correct these mistakes. Other amendments to the specification were made to refer directly to the SEQ ID NO, when citing a sequence.

To correct the informalities in the Original Sequence listing, enclosed herewith are: (1) a paper copy of the Replacement Sequence Listing, (2) and a computer readable version of the Replacement Sequence Listing. The Response to Notice to Comply directs entry of the paper copy of the Sequence Listing into the application. In view of the foregoing, the application is believed to fully comply with the Sequence Listing Disclosure requirements.
